About Company

Sun Outstanding is engaged in the ICT, internet solutions, industrial HVAC solutions and civil engineering from the design, product supply to the construction, installation and after sales services. With a commitment to excellence, our experienced team ensures every project meets the highest standards of quality, safety, and efficiency.

Let's build a smarter, safer, and more connected future together.

We strongly believe in providing turn-key solutions to our customers.

SUN OUTSTANDING

For Better ICT & HVAC Solutions

SUN OUTSTANDING

ICT Solutions

We aim at improving communication, productivity, and operational efficiency with various products such as switches, routers, CCTV, building management, etc.

Our Services

IT Infrastructure

Setup and maintenance of servers, computers, and peripherals. Design, implementation, and monitoring of LAN/WAN and wireless networks.

Cloud Services

Transitioning data and applications to cloud environments. Providing scalable hosting solutions for websites and applications.

Technical Support

On-demand troubleshooting for hardware, software, and network issues. Flexible support options to resolve issues promptly.

Our Vision & Mission

- Empowering Digital Transformation: Deliver cutting-edge technology solutions that drive business innovation and operational excellence.
- Energy-Efficient Comfort: Deliver HVAC solutions that maximize comfort while minimizing energy consumption.
- To create a future where smart technology meets sustainable environmental control offering integrated ICT and HVAC solutions

SUN OUTSTANDING

ICT Projects

Strong and Weak Current Construction: We provide both strong and weak current systems and construction work. All the building control systems such as internet, telephone, CCTV, access, audio, alarm, automation, etc.

ICT Projects

Turn-key System

We carry out both strong and weak current systems for your whole building, one-stop service, do it as a whole thing, not separated.

Services

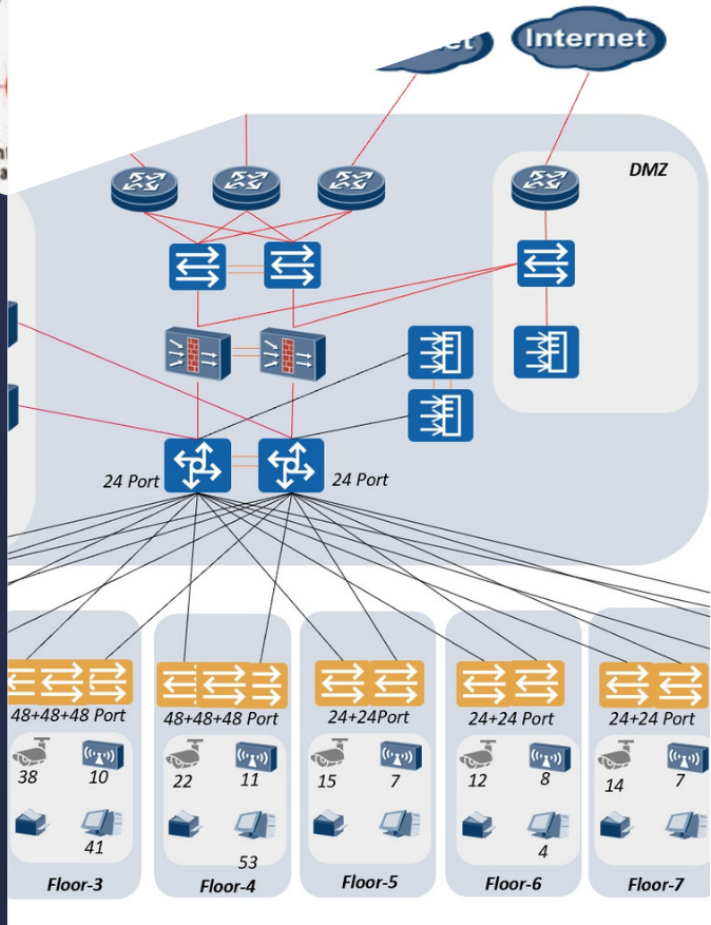

Design, product selection, transportation, installation, commissioning, test, training, guidance, after sales services.

Mature Technology

All based on well-known brands such as HUAWEI, GREE, TCL, provide mature and modern technology support, enjoy your cutting-edge high-tech.

ICT Projects

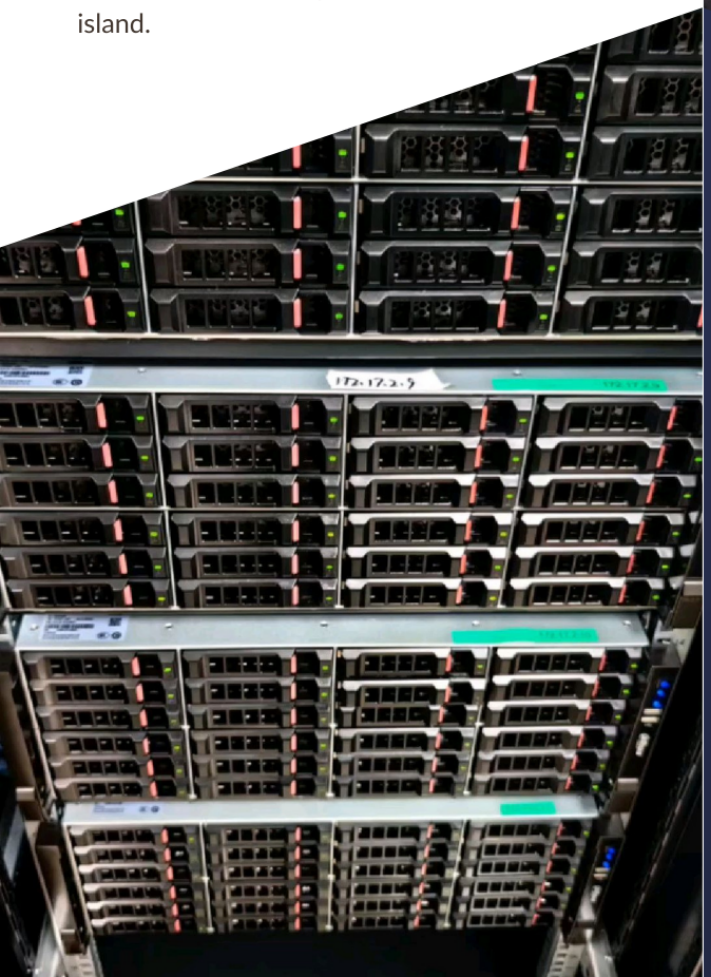

- **High Level Design**: Just let us know how complicated of your project. Maybe it is very easy for us.
- **Hard-core Devices**: Switches, routers, server, CCTV, detectors, access control, alarm, automation devices.
- **Cutting-edge Technology**: LAN, WAN, WLAN, ioT, VPN, PoE, USB, IPv6, RIP , OSPF, what else you need to know?

SUN OUTSTANDING

ICT Projects

Sri Lanka Network Construction: Enterprise level internet turn-key solutions: with equipment such as switches, routers, cables, revolutionizing internet connectivity for businesses across the island.

ICT Projects

Router Construction

The NetEngine AR650 Enterprise Router is a 1U box series product for large SMB and small business branches. enterprise customers.

HUAWEI

HUAWEI Technolegy: It integrates rich business features such as SD-WAN, routing, switching, security, WLAN, etc.

Rwanda Bldg Mngt.

For building management to support background music system, telephone & data, CCTV system, fire Alarm system, Home Automation System.

ICT Projects

- **CCTV** system for a office building in **Singapore** for a significant upgrade in security measures for tenants and visitors.
- The new system combines cutting-edge technology, real-time monitoring, and advanced analytics to ensure a safer and more efficient working environment.
- High-Definition Cameras, AI Analytics, Facial Recognition, 24/7 Monitoring, Cloud Storage and Remote Access

SUN OUTSTANDING

HVAC Solutions

We we pursue the development with technology-driven, intelligence and green to provide customers with residential, commercial and industrial HVAC Solutions

Our Services

Project Design

Gather specific needs, including comfort levels, energy efficiency, and budget constraints. Review the layout, building use and space requirements.

Product Selection

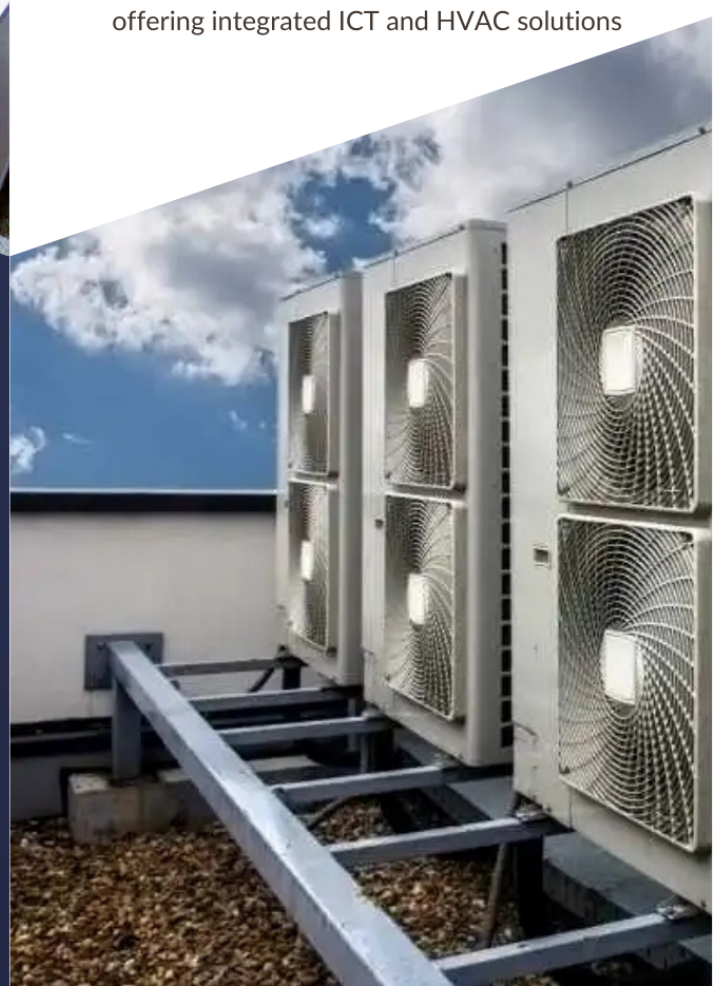

According to the requirements and situation of the customers, we select the right HVAC products including brands, function, local features, budget, etc.

Installation

We send technicians to your site and provide installation guidance, commissioning, training, trouble shooting, and after sales service.

Our Vision & Mission

- Empowering Digital Transformation: Deliver cutting-edge technology solutions that drive business innovation and operational excellence.
- Energy-Efficient Comfort: Deliver HVAC solutions that maximize comfort while minimizing energy consumption.
- To create a future where smart technology meets sustainable environmental control offering integrated ICT and HVAC solutions

SUN OUTSTANDING

HVAC Projects

Split AC OEM design for Hungary Customer. 1200 sets with capacity from 1 ton to 2 tons, inverter type, cooling and heating, customized remote controllers.

HVAC Projects

VRF for Mongolia

For both residential and commercial spaces to against the scorching summers and freezing winters in Mongolia.

Energy Efficiency

VRF systems offer a much more sustainable alternative. By using variable refrigerant flow to precisely adjust temperatures in different parts of a building.

Future Outlook

Looking ahead, the market for VRF air conditioning systems in Mongolia is expected to grow rapidly, fueled by the country's increasing urbanization, growing middle class, etc.

HVAC Projects

- We provide a batch of HVAC systems for a metallurgy plant in Indonesia.
- The equipment includes 5 water-cooled screw chillers (capacity 1,500kw),cooling towers, AHUs, Ventilation Systems, Purification systems, etc.
- This metallurgy plant is an Electrolytic Copper production plant. These HVAC will serve the workshop, warehouse, office building, dormitory and canteen.

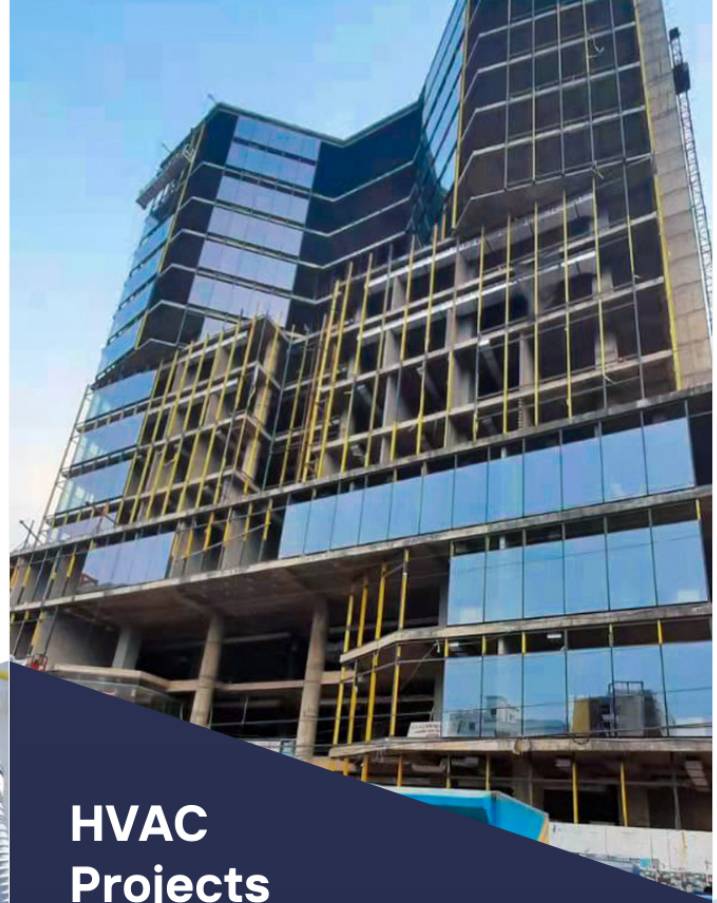

SUN OUTSTANDING

HVAC Projects

20tons and 25tons **rooftop AC units** for a textile workshop located in **Serbia.** The rooftop AC system including roof units, room units and pipping works, which are used in very high temperature weather.

HVAC Projects

VRF for Bangladesh

We carried out a VRF Project for a commercial complex in Bangladesh – Uttara Square Project. This project need VRF VRV refrigeration systems.

Uttara Square

Uttara Square is a world class Shopping-cum Commercial Complex situated at a prime location of the Commercial Zone in Uttara.

We Care

LWe put this project as our main concern for the past 2 years. We care about the project process and made several on-site visit for inspection, installation, commissioning, training, etc.

HVAC Projects

- **AHU** for a factory project in **Kazakhstan** for boosting Factory Efficiency and Employee Well-being.
- Supporting the Growth of Kazakhstan's Manufacturing Sector. new factories and manufacturing plants are increasingly outfitted with state-of-the-art AHU systems as part of their infrastructure.
- The long-term savings will outweigh the initial investment.

SUN OUTSTANDING

Product Delivery

Split AC Shipping to Europe: A batch of home use split ACs with OEM (Original Equipment Manufacturer) solutions for the unique needs of European customers.

Product Delivery

Shipping to Sri Lanka

A**ir-cooled Cabinet Chiller** Units and 2 hot-dip galvanized steel coils to Sri Lanka, and the products have been shipped to the customer successfully.

Application

It is commonly used for commercial places such as bars, shops, restaurants, halls, salons, gym, billiard rooms and bowling rooms, etc.

Parameters

Model: LLS140Z and LLS260Z
Cooling Capacity: 140Kw and 265Kw
Cooling Volume: 24000 m^3/h and 42500 m^3/h
Refrigerant: R410A

Product Delivery

- **VRF Shipping to Maldives:** For commercial building, office, shopping mall, shop, hotel, supermarket, school, etc.
- **Quality Product**: VRF air conditioning system has a long service life and a very low unit failure rate. It is basically self-adjustment and diagnosis, no special maintenance is required, and the outdoor unit service life is as long as 30 years, which greatly saves maintenance costs.

SUN OUTSTANDING

Global Cooperation

Bangladesh Customer Visit Factory: Bangladesh customer visit TCL factory to check the light commercial HVAC, residential AC and spare parts, etc.

Global Cooperation

European Customer

Customers are looking for split AC and heat pump suppliers from China. After meeting and factory visit, they are decide to cooperate with us.

OEM Design

e are glad to share the good news to European customers that we provide OEM solutions for the unique needs of European customers.

Heat Pumps

The recent energy shortage in Europe has stimulated the demand for energy-saving and heating appliances. And the export quantity of heat pumps from China to Europe has increased significantly.

Global Cooperation

- **Floor-standing AC for Kazakhstan:** 10hp floor standing cabinet type air conditioner.
- **Inverter Technology:** Provides consistent temperature control and better energy savings.
- **Smart Controls**: Wi-Fi-enabled units allow remote operation via smartphone apps.
- **Air Purification:** Filters for allergens and pollutants, useful for urban areas.
